

EMAIL TO:

Medical School Leaders, Administrators, or Faculty

Hello,

My name is [YOUR NAME] and I am a [INCOMING, FIRST YEAR, ETC.] student at [YOUR MEDICAL SCHOOL NAME].

As a future healthcare provider, I am proposing that our class be able to write a new/updated medical oath to set a standard for our school and our class that incorporates elements left out of modern Hippocratic Oaths.

I believe writing a new/updated medical oath is good for our medical school and its students.

This would give us a chance to consider more deeply our professional ethics and our sense of mission and meaning as physicians living and working in an ever-growing society. This process has worked well for many medical schools, including an updated medical oath led by medical student Abigail Rubio at University of Pittsburgh School of Medicine (<https://salud.to/arubio>).

Given your role, would you support our efforts to write a new/updated medical oath?

Please let me know how we can work on this together.

Looking forward to your support,

[YOUR NAME]
